Santiago
Bella

With a strong trajectory in business management and technology applications, the skills I have acquired in career have shown to be adaptable to different industries.

Entry Level
Full Stack Web Developer

Now, I've fallen in love with a technical field that touches both the creative and analytical parts of my mind.
With the skills acquired at The University of Adelaide Full Stack Web Development Bootcamp, I can be a great asset to teams of all sizes.

WORK EXPERIENCE ▼

Chief Data Officer
Taylor & Holmes

Dec 2017
Present

An analytical role that has increased my attention to detail and meticulous processes, which is a great transferrable skill into coding.

**#REPORTING #ATTENTION TO DETAIL
#PHOTOSHOP #INDESIGN**

Procurement Officer
Allog – Agility Transports
BRAZIL

May 2012
Nov 2016

In this role, communication between all internal and external stakeholders was key to the successful ongoing demands of the role. Working in a team, communication is the center point.

**#COMMUNICATION #NEGOTIATION
#PRICING #NETWORK MAINTENANCE**

Admin Manager
Alpha Counseling

Aug 2010
May 2011

Flexibility is key in this role. While having standard procedures and compliances to meet, learning to adapt and find creative solutions to the day-to-day activities was essential.

**#ADAPTABILITY #PRINTING
#PHOTOSHOP #HTML #CSS**

EDUCATION ▼

🎓 Full Stack Web Dev
The University of Adelaide

A thorough bootcamp that provides students with the tools to join the industry.

2020-2021

🎓 Bachelor of Commerce
Torrens University

With a concentration in Accounting, this degree is what has brought me to Australia.

2017-2019

OBJECTIVE ▼

My previous experiences have taught me how to **communicate well** with team members, understand the **importance of the details** and to **be adaptable.** All of which are skills that can be transferable to the development world.
With the **foundational understanding of coding** acquired in the Full Stack Web Development course I've undertaken; my main objective now is to **find an opportunity to deepen my coding skills** in an environment that will offer **mentoring** and an opportunity for me to **contribute to the organization's goals**.
